

# UPCOMING IMPROVEMENTS TO BRICKFIELDS PARK

Brickfields Park is an important park for local young people.

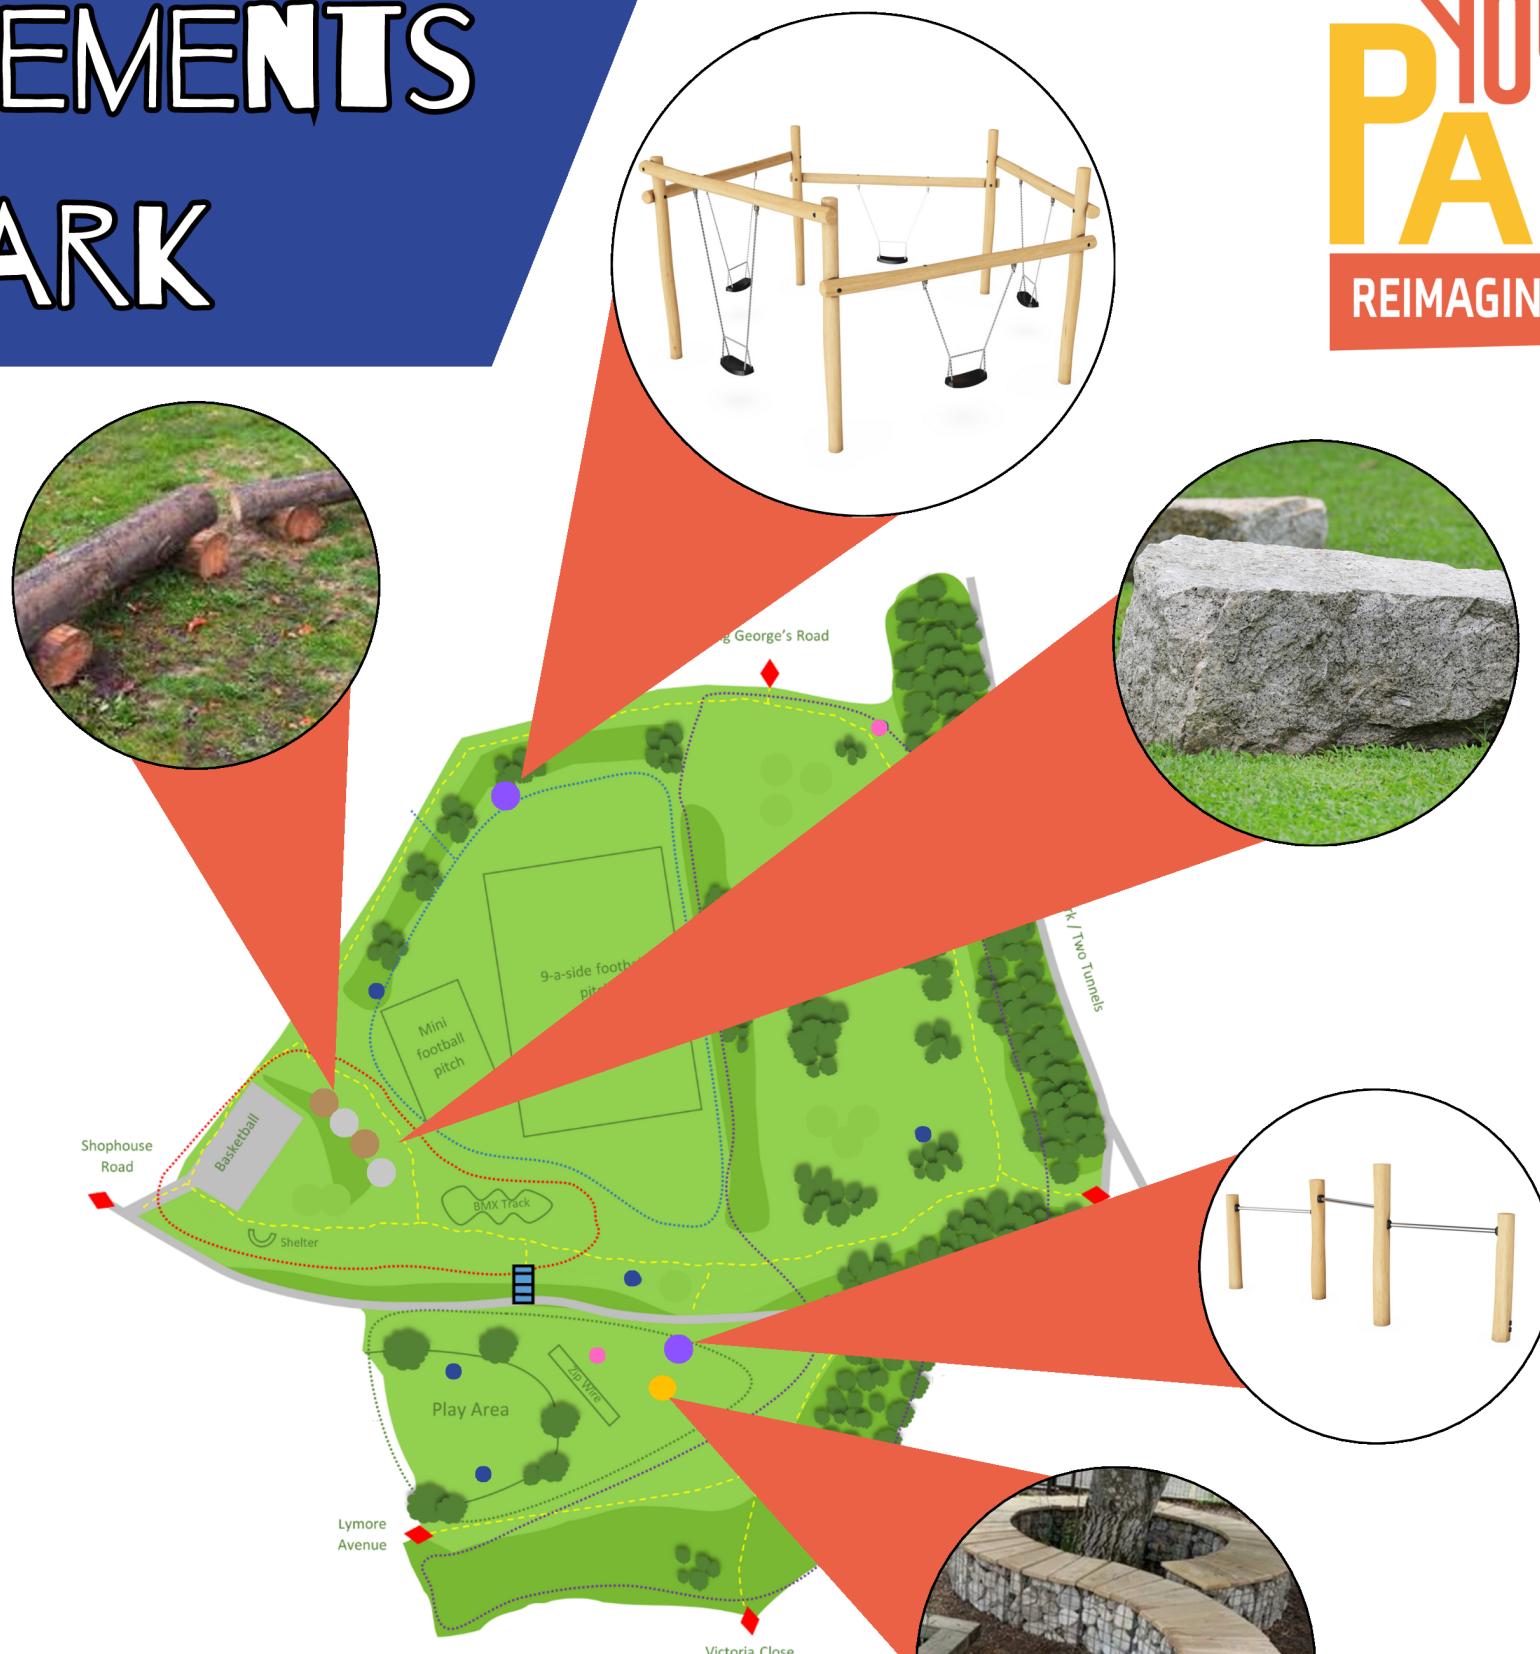

In 2020, Bath & North East Somerset Council completed a community consultation to identify your priorities for improving the Park.

Since then, Your Park Bristol & Bath has been working with the council to realise these priorities.

In 2021-22, Your Park Bristol and Bath carried out a further consultation with local young people to find out what you want from the park.

The consultation showed the provision at Brickfields Park for boys is relatively good, but more needs to be done for girls to use the park more.

Starting in October, working with B&NES Council we are introducing new social seating areas, swings for older children and play equipment as requested by girls but benefitting all park users.

- New play equipment
- Relocated or new benches
- New natural stone seating
- New natural log seating
- New figure of eight social seating area
- Existing bench
